CAPITAL OVER 350,000 DOLLARS,
AND CONSTANTLY INCREASING.
The Charter of this Company offers more favora-The Charter of this Company oners more lavora-ble advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the in-sured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the

combination of the CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Cempany thus far, and for its flattering pros-pects of future usefulness. The Directors hope peets of future usefulness. The Pince and a rigid and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. S. SANDS' EXCELSIOR MANIPULATED

GUANO No. 1. HAVE engaged in the Manipulation of GU ANOS, and am now ready to supply the Far-mers and Planters of the United States with an article which I consider superior to anything of the kind which has yet been produced, having an unusual amount I believe, of the valuable ingredients in this article. During my editorship of the "American Farmer," with which until within a few Pearl and Morocco Porte Monmonths, I have been connected for 25 years, I have most emphatically urged upon the Farmers and Planters that the mixture of the Ammoniacal Guano (Peruvian) with the Phosphatic (Mexican, Columbian, &c.,) was the best and cheapest application to most crops they could apply. For more general views upon this subject, I refer to the pages of the American Farmer; and also, to my circular just issued (and which will be forwarded to any one desiring it) in which this view is ably sustained by Dr. Bickell, Analytical Chemist, of this

93 to 10 per cent. Ammonia and 45 to 50 per cent. Phosphates.
It is intended that it shall reach the highest of these standards, but some allowance is desired to be made, to meet any possible short-coming which by accident may be made. The Excelsior No. 1

I believe equal to the best Peruvian Guano on any crop to which that article is applied, and will sur-pass it as improvement to land. The Agricultural public have been much imposed upon by all sorts of professed fertilizers, but I have no hesitation in saying, that I believe this compound will be found the "Ne Plus Ultra" of anything of the kind which has yet been produced; and with this confidence in its value, I have agreed to introduce it to the c. THE ART OF NOT HEARING. THE ORIGINAL OFFI BOOK STARL.

D. W. EVANS & CO.,
THE 677 BROADWAY, 677 THE NEW-YORK.
YEAR. ESTABLISHED 1854. YEAR.

The art of not hearing should be taught in every well-regulated family. It is full as important to domestic happiness as a cultivated ear, for which so much money and The art of not hearing should be taught time are expended. There are so many things it is painful to hear, many which we ought not to hear; very many which it heard. will disturb the temper, corrupt simplicity and modesty, detract from contentment and happiness, that every one must be educated to take in or shut out sounds, according to

their pleasure.
If a man falls into a violent passion, and calls me all manner of names, the first word shuts my ear, and I hear no more. If, in my quiet voyage of life, I find myself caught in one of the domestic whirlwinds of scolding, I shutmy ears as a sailor would furl his sails, and making all tight, scud before the gale. If a hot and restless man begins to inflame my feelings, I con-Gents' Fob and Vest Chains 10 00 to 30 00 sider what mischief these fiery sparks may do in the magazine below, where my temper is kept, and instantly close the door.

Does a gadding mischief-making fellow begin to inform me what people are saying 7 50 about me, down drops the portcullis of my ear, and he can not get in any further. Does the collector of a neighborhood's scandal ask my car as a warehouse, it instinctively shuts up. Some people seem anxious to hear everything that will vex and anov them. If it is hinted that any one has spoken evil of them, they set about searching the matter, and finding out. If all the petty things said of one by heedless or ill natured idlers were to 22 00 to 30 00 be brought home to him, he would become a mere walking pincushion stuck full of sharp 30 00 remarks. I should as soon think of thanking 6 00 a man for emptying upon my bed a bushel 1 50 of nettles, or setting loose a swarm of ants in my chamber, or raising a pungent dust in my house generally, as to bring in upon me all the tattle of careless or spiteful people.

If you would be happy, when among good men, open your ears; when among bad, shut them. And as the throat has a muscular arrangement by which it takes care of the air passages of its own accord, so the ears should be trained to an automic dullness of hearing. It is not worth while to hear what your servants say when they are angry; what your children say after they have slammed the door; what your neighbors say about your children; what your rivals say about your business, your dress, or your affairs.

This art of not hearing, though untaught in the schools, is by no means unknown, or unpracticed in society. I have noticed that a well-bred woman never hears an impertinent or a vulgar remark. A kind of discreet deafness saves one from many insults, from much blame, from not a little apparent connivance in dishonorable conversation.

There are doors inside my ears, a right handed door leading to my heart, and a left hand door, with a broad and steep passage, out into the openair. The last door receives all ugliness, profanity, vulgarity, mischiefmaking, which suddenly find themselves outside of me. Judicious teachers and indulgent parents, save young urchins a world of trouble by a convenient deafness. Bankers ook, new or old, now in print; and acknowledged and money-lenders often are extremely hard by librarians and literary men to be the most com- of hearing, when unsafe borrowers are importunate. I never hear a man who runs fter me in the street, bawling my name a the top of his voice; nor persons that talk evil of those who are absent: nor those who give me unasked advice about my own affairs; nor those who talk largely about things o

which they are ignorant.

If there are sounds of kindness, of mirth, of love, open fly my ears! But temper, or harshness, or hatred, or vulgarity, or flattery. shut them. If you keep your garden gate shut, your flowers and fruit will be safe. If you keep your door closed, no thief will ran off with your silver; and if you keep your cars shut, your heart will lose neither its flowers nor its treasures, -E. Reynolds' Mis-
